## Indiana Area School District 1:1 Chromebook Initiative Lending Agreement IASD Technology: Transforming Education, Empowering Learners

The Indiana Area School District is pleased to provide students with the opportunity to participate in the *IASD 1:1 Chromebook Initiative*. All learners are given the privilege of utilizing a Chromebook that is the sole property of the Indiana Area School District.

This district-issued device is to be utilized for the *IASD 1:1 Chromebook Initiative*. The student and his/her parent(s)/guardian(s) agree and ensure that the Chromebook will be used solely for educational purposes and not for any other unauthorized use. The student shall use the Chromebook in a lawful, prudent, and careful manner and shall not make any alterations to the Chromebook without the consent of school district personnel. No music or games shall be downloaded or installed on the Chromebook. The student and parents shall not permit the Chromebook to be used by anyone other than the student. Unauthorized use of the Chromebook will constitute grounds for discipline as outlined in the Discipline Response Structure of the Student Planner.

Students and parent(s)/guardian(s) are responsible for maintaining this equipment in the condition in which it is issued. Parent(s)/guardian(s) and students will incur all expenses resulting from damaged or lost equipment or attempts to tamper with equipment. Below are the pricing guidelines for equipment repairs and replacements if the *IASD 1:1 Insurance Plan* is not purchased or if insurance claims exceed two in a school year:

Power cord	\$ 25.00
Keyboard replacement	\$100.00
Battery replacement	\$100.00
Screen replacement	\$100.00
New Computer	\$300.00

If insurance coverage is not purchased and the Chromebook is damaged, the parent(s)/guardian(s) will be invoiced for the cost of repairs. The Indiana Area School District accepts payment in the form of check, money order or by credit card via [MySchoolBucks.com](http://MySchoolBucks.com). No cash will be accepted.

The Indiana Area School District will adhere to the policies and guidelines in the Student Planner for any student who has not returned the Chromebook in good working order or who has not paid for repairs. Additionally, the Indiana Area School District reserves the right to contact a collection agency and/or file a complaint with the District Magistrate to recover lost equipment or expenses that result from any damages to its property.

I have read the above statements and agree to adhere to all *IASD 1:1 Chromebook Initiative* Lending Agreement guidelines.
